

# Broilers

The Itau broiler range is optimally formulated to achieve the best production efficiency (PEF). This is done by making use of world class technology in feed formulation as well as a very strict quality control system for raw material and finished product evaluation. With Itau, the broiler farmer will achieve higher profits by better feed conversion and increased growth.

## Itau Broiler-reeks

- Itau's 3-phase feed range
- Guaranteed quality.
- Ideal for broilers not housed in environmentally controlled facilities

## ITAU BROILER

Product name	Feeding days	Intake (g/chick)
113 Starter Crumbs	0-21	1000
114 Grower Pellets	22-35	1500
115 Finisher Pellets	36-42	900

- For 100 chicks, use 2 bags of Itau Starter, 3 bags of Itau Grower and 2 bags of Itau Finisher

## Itau Broiler Extreme range

- Itau's 5-phase feeding range with the option of using a receiver feed for placement.
- Ideal for the producer with intensive production systems and very effective management. Typical feed for houses with a high degree of environmental control.
- Optimal production efficiency will be obtained when top quality chicks are fed.
- Perfect formulation of amino acids and energy will ensure muscle growth and skeletal development. Breast meat percentage is increased and fat deposition limited to strive for perfect carcass quality and increased dress out percentage.
- Selenium enriched to boost immunity in the animal as well as humans
- This product is only available in bulk.
